PRODUCT CATALOGUE

FOR BUILDING PROFESSIONALS

This catalogue features a representative selection of products taken from our full portfolio. To know more about our complete range of products, visit [quilosa.com](https://www.quilosa.com)

Selena was founded in 1992 in Wrocław, and we have spent the last 30 years developing cutting-edge, tailored systems that service all of our clients' needs, always meeting the highest of standards.

Our main line of business is the development and manufacturing of innovative sealants, polyurethane adhesive foams, and waterproofing products, as well as their commercialization through Construction, Industry, and DIY channels.

The remarkable life-span of our company has empowered us into becoming leaders in the 'Chemical Products for Professionals' sector.

Thanks to you, Selena keeps growing and reaching new heights every day.

- **RESEARCH & DEVELOPMENT**

We have an in-house R&D division equipped with significant experience and relevant market- knowledge. They work tirelessly to improve our product's performance and applications. Our systems are tailored to the needs of our professional customers, and we frequently collaborate with stakeholders from all steps of the supply-chain in research and development projects.

- **PRODUCTION CAPABILITIES**

Our productive facilities are based in Spain, in the province of Guadalajara. Our factory -which covers 19.000 sqm- locally produces all of our adhesives and sealants, making us the company with the highest production capacity in the Iberian Peninsula. We are currently investing on increasing our already high output, as well as expanding our industrial network abroad, in order to keep up with the rapidly growing demand.

- **GLOBAL QUALITY**

Quality is at the heart of Quilosa's identity. Our brand is acknowledged as a high-standards' guarantee in all the markets we have established ourselves in. To keep living up to our customers' high expectations, we continually certify our products' quality through third-party, independent tests and trials.

- **TECHNICAL CONSULTING FOR PROFESSIONALS**

Thanks to the continuous collaboration between Quilosa's team and all of our partners and customers, we can offer insightful advice and relevant technical support: we will answer your questions. We also hold regular workshops, both in our office and on-site, helping our partners' salesforce to understand the product's advantages better. Please contact your area's representative if you're interested in holding such an event.

- **SUSTAINABLE DEVELOPMENT**

We are firmly committed to environmental sustainability. We make this commitment a part of our product development process, so that our systems encourage sustainable construction and energy efficiency.

- **CUSTOMER SERVICE**

Our team is ready to resolve any of your queries:
 Tel.: +34 900 92 32 95 · info@quilosa.com
 Monday to Thursday from 9:00 to 18:00 · Friday from 9:00 to 15:00

TECHNOLOGICALLY INNOVATIVE PRODUCTS

Waterproofing
AQUA PROTECT P4
Waterproofing membrane
25 years of durability

Waterproofing
AQUA PROTECT LIQUID MS SILICONE
ETAG 005 Certificate.
Up to 25 years of product lifespan

PU Foam
ULTRA FAST 70
The fastest foam on the market, "Ultra fast"

Foam adhesive
GYP SUM CARDBOARD
Quick wall levelling, foam adhesive for gypsum board

Foam adhesive
FIXACION 60 SEC
Set all kinds of materials in only 60 seconds

Foam Adhesive
ETICS
PU Foam for usage in facades

Mounting adhesive
POWER FIX
Fast and reliable bonding in 3 sec

100% silicone neutre
PERFECT BATHROOM
Perfect sealing, even on delicate surfaces

+ SPEEDS UP BUILDING

+ DELIVERS HIGH QUALITY

+ REDUCES THE LABOUR COST

SEALANTS

Our range of sealants is composed by a wide range of products & technologies, covering all kind of applications both indoor and outdoor joints in commercial, industrial or residential buildings.

In order to choose the right sealant for each application, several factors should be considered: joint movement, resistance to weathering, solar light, temperature, need to paint the joint, and type of material on which it will be applied. Correct preparation and application of the product is essential to obtain optimal performance and the building's appropriate protection against external agents.

ORBASIL N-25 Colour Windows & Facades

High-performance neutral silicone sealant available in different colours. Certified AENOR N. ISO11600 F+G 25LM.

APPLICATIONS:

- Sealing in construction, glazing and windows (PVC, wood, aluminium, lacquered aluminium).
- Expansion joints on facades.
- Porous and non-porous materials.

ADVANTAGES:

- Maximum elasticity and adherence.
- Maximum resistance to weathering and UV rays. Permanent colour.
- Full range of colours.

Orbasil N-16 Construction and Windows

High-performance neutral silicone sealant for sealing windows and construction.

APPLICATIONS:

- Sealing of doors and windows. Sealing of frames, glazing and carpentry – work.
- Expansion joints on facades.
- Sealing of PVC elements.
- Porous and non-porous materials.

ADVANTAGES:

- High elasticity and adherence.
- High resistance to weathering and UV rays.
- High performance for construction.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box

Orbasil N-09 General Use in Construction

Neutral silicone sealant for general use in construction.

APPLICATIONS:

- Sealing of static and expansion joints.
- Sealing of glazing, windows, and doors.
- Porous and non-porous construction materials.

ADVANTAGES:

- Resistant to weathering and UV rays.
- Does not contract or crack.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box

Orbasil N-26-s Sanitary

Mould resistant neutral silicone sealant.
FDA CFR21 §177.2600(e) indirect contact with food.

APPLICATIONS:

- Sealing in bathrooms and kitchens, screens, shower trays, tiles, washbasins.
- Specially formulated for sealing in applications in critical environments, hospitals, laboratories, pharmaceutical industry, refrigeration units and dryers.

ADVANTAGES:

- Mould resistant. Contains fungicide.
- Maximum resistance to weathering and UV rays.
- Maximum elasticity and adherence.
- Tested according to regulation FDA CFR21 §177.2600 (e) for indirect contact with foodstuffs.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box
Cartridge	300ml	Lacquered White	10043266	8411729357740	24
		Translucent	10043265	8411729357665	24
		White	10043550	8411729445034	24

Orbasil N-32 Mirrors

Special neutral silicone adhesive sealant for installing mirrors.

APPLICATIONS:

- Bonding and sealing of indoor mirrors and panels on different materials.

ADVANTAGES:

- Does not stain the mirror.
- High resistance.
- Flexible, ultra-strong joints.
- Elastic, absorbs movement between panel and surface.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box
Cartridge	300ml	White	10042234	8411729019822	24
		Translucent	10042233	8411729019907	24

Orbasil K-86 General purpose

Multi-purpose acetoxy silicone.

APPLICATIONS:

- Sealing in glazing, sealing glass-aluminium joinery.
- Sealing in bathrooms and kitchens.

ADVANTAGES:

- Mould resistant.
- Watertight seal.
- Resistant to weathering and ageing.
- Excellent bonding to glass, aluminium, tiles, ceramic, glazed surfaces and other non-porous surfaces.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	300ml	Translucid	10043803	8411729618124	24
		White	10043806	8411729618537	24
		Aluminum	10043804	8411729618209	24
		Copper	10043805	8411729618384	24
		Grey	10043801	8411729617059	24
		Black	10043802	8411729618049	24

Orbasil K-91 Glazing

High-performance acetoxy silicone.

APPLICATIONS:

- Glazing sealant.
- Sealing in metal structures, counters, glass cases and windows, refrigeration, ventilation and air conditioning components and small aquariums.

ADVANTAGES:

- Elastic, lasting joints.
- Resistant to weathering and ageing.
- Excellent bonding to glass, aluminum, tiles, ceramic, glazed surfaces and other non-porous surfaces.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	300ml	Translucent	10043784	8411729590147	24
		White	10043799	8411729613334	24
		Aluminium	10043785	8411729590222	24

Aklesil Multi-Purpose

Multi-purpose acetoxy silicone.

APPLICATIONS:

- Sealing in glazing, sealing in glass-aluminium joinery.
- Sealing in bathrooms and kitchens.

ADVANTAGES:

- Resistant to weathering and ageing.
- Resistant to mould.
- Excellent bonding to glass, aluminium, tiles, ceramic, glazed and other non-porous surfaces.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	280ml	Translucid	10043781	8411729581565	24
		White	10043782	8411729581640	24
		Aluminum	10043888	8411729942502	24
		Copper	10043887	8411729942434	24
		Black	10043889	8411729942687	24

Aklesil plus

Siliconized, acrylic, high-elasticity sealant. Exclusive, patented formula.

APPLICATIONS:

- Permanent repair and sealing of gaskets, cracks and fissures in seals.
- Sealing of porous surfaces.

ADVANTAGES:

- Weather- and aging- resistant.
- Mildew resistant.
- Easy to even out.
- Paintable.
- Environmentally sustainable.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	300ml	Clear	10042794	8411729173760	24
		White	10042795	8411729173845	24

Bathrooms & Kitchens Mould Resistant Silicone

10 YEARS WARRANTY

High-quality acetoxy silicone sealant recommended for application in areas with high humidity such as bathrooms and kitchens. It protects surfaces and actively prevents the formation of mould and blackening. It waterproofs, hermetically preventing leaks and resisting humidity, temperature and cleaning products.

APPLICATIONS:

Sealing of joints in bathrooms and kitchens:

- Joints in washbasins, baths, showers, screens or toilets.
- Joints in kitchen counters and sinks.

ADVANTAGES:

- 10 years anti-mould guarantee.
- Fast curing.
- Prevents water leakage.
- Elastic.
- Multi-position nozzle for application in difficult to access places.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Tube	100ml	White	10043600	8411729455187	12
		Translucid	10043604	8411729455750	12
Cartridge	280ml	White	10043497	8411729592462	12
		Translucid	10043496	8411729592387	12

Perfect Bathroom Silicone Neutral Silicone Sealant

15 YEARS WARRANTY

High quality silicone for sealing Kitchens and Bathrooms. 100% NEUTRAL cure, perfect for watertight sealing on all types of materials, even the most difficult and delicate ones, where conventional acetoxy silicones can't be used. Watertight, elastic and long-lasting sealing. High mould resistance: up to 15 years of MOULDLESS guaranteed.

APPLICATIONS:

- Fit for shower plates and screens, as well as kitchens worktops made of delicate materials such as marble, wood, Silestone®, stone, slate...
- Watertight bonding & sealing on almost all porous and non-porous materials. Prevents water filtrations and mould growth in gasket. Resists humidity and most daily-usage cleaning products.

ADVANTAGES:

- Ultra-Fast: Dries in only 15 min.
- Odourless.
- Guarantee 15 years without mould.
- High durability
- Great range of colours.

Sintex MS-35 Bonding and Sealing

Product video

MS polymer for elastic bonding and sealing.

APPLICATIONS:

- Elastic bonding and sealing of construction elements (tiles, baseboards, interior and exterior panels).
- Sealing of gaskets.
- Sealing of metal roofing.
- Gaskets in walkable floors.
- Non-structural sealing of caravans, container bodywork and industry in general.

ADVANTAGES:

- Bonds and seals even on wet surfaces and under water.
- Paintable.
- High mechanical resistance.
- 600% elasticity.
- Resistant to weathering and UV rays.
- Multi-material.
- Free of isocyanates and solvents.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box
Cartridge	300ml	White	10043798	8411729613259	24
		Grey	10043791	8411729600204	24

Sintex MS 20

Low-modulus, high-elasticity MS polymer sealant for sealing construction gaskets.

APPLICATIONS:

- Expansion gaskets in buildings under construction and prefab elements.
- Gaskets on unwalkable surfaces.
- Joints on balconies and terraces.

ADVANTAGES:

- Seals even on wet surfaces. High resistance to weathering and UV rays.
- Elastic, paintable joints. Does not stain.
- Excellent adherence to most construction materials.
- Free of isocyanates and solvents.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box

Aluminum Bag	600 ml	Ral 9002 grey white	10043224	8411729341572	12
		Grey	10043819	8411729697655	12
		White	10043903	8411729966775	12

MS Instant MS Polymer Adhesive

MS Polymer-based adhesive with a powerful immediate grip for ultra resistant bonding of elements both vertically and horizontally.

APPLICATIONS:

- For instant bonding that requires resistant, flexible glue.
- Metal and plastic pieces, panels, sheet metal, mirrors, insulation panels, prefab elements, agglomerate panels and industrial bodywork.

ADVANTAGES:

- Immediate grip: 3 seconds. Bonds even on wet surfaces and under water.
- Ultra resistant: 300 Kg/10cm².
- Elastic: absorbs vibrations and movement of expansion and contraction.
- Free of isocyanates and solvents.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box
Cartridge	280ml	White	10043307	8411729367800	12
		Black	10047451	8411729003449	12

Sintex MS Transparent

Transparent bonding and sealing.

APPLICATIONS:

- High elasticity. Perfect for bonding and sealing of most materials: concrete, brick, cement, aluminium, steel, zinc, polycarbonate, glass, ceramic and other materials.
- Construction gaskets for bathrooms, pipes, skylights..

ADVANTAGES:

- Bonds even on wet surfaces.
- 300% Elastic.
- Resistant to weathering.
- Multi-material.
- Free of isocyanates and solvents.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box
Cartridge	280ml	Transparent	10043314	8411729369705	24

Sintex MS-33 Mirrors

MS polymer adhesive sealant for mounting mirrors and panels.

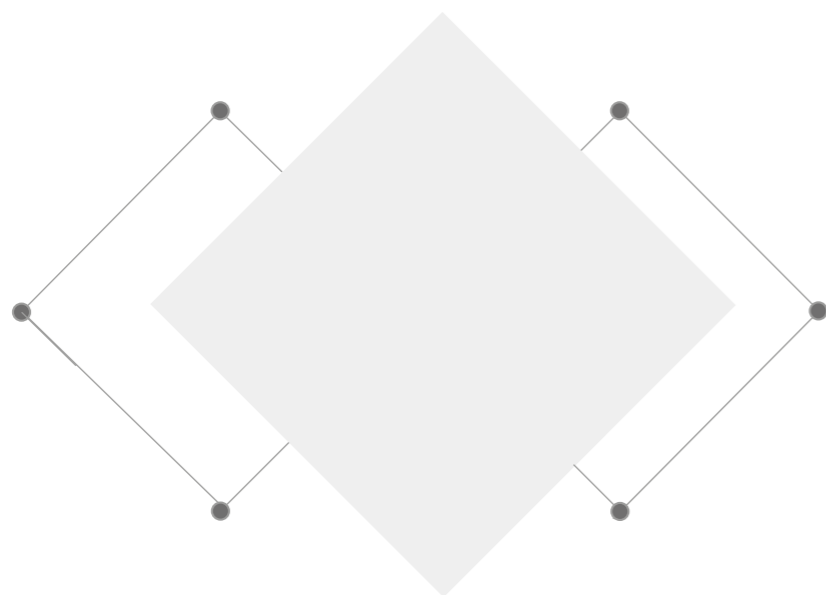

APPLICATIONS:

- Mounting and sealing of indoor mirrors and panels on most materials: melamine, glass, ceramic, mortar, wood, polyester, PVC, metals.

ADVANTAGES:

- Does not stain the mirror coating.
- High initial tack.
- Absorbs vibrations.
- Adheres to difficult materials such as melamine.
- Free of isocyanates and solvents.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	300ml	Grey	10043792	8411729600617	24

1000 USES Bonds & Seals All

MS polymer for bonding and sealing in all types of applications.

APPLICATIONS:

- For construction seals, joinery, gutters, sanitarries, fends, piping, roof skylights.
- For bonding of metal and plastic pieces, panels, mirrors, insulation layers, chipboards, boards, and veneers.
- Works on all materials: brick, tiles, concrete, metal, plastics, marble, granite, polystyrene, polycarbonate, glass, PVC, DM wood, aluminum, ceramic, mirrors.

ADVANTAGES:

- Applicable under water.
- Super elastic: 500%.
- Super resistant: 250 kg/10cm².
- Absorbs structural vibrations and withstands joint contractions and expansions.
- Resistant to the effects of weather and extreme temperatures (-40°C + 90°C).
- Multi-position nozzle for use in hard-to-reach places.
- Free of hazardous substances.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Tube	100ml	White	10024497	8411729455835	12
Cartridge	280ml	White	10042332	8411729038892	12
		Grey	10043222	8411729339692	12
		Brown	10043219	8411729338374	12

		Tile	10043223	8411729339777	12

Fix Panels MS Adhesive

MS based elastic adhesive for mounting panels on light facades.

APPLICATIONS:

- Installing panels on light facades on different materials, composite, ceramic, wood or fibre-cement.
- Interior and exterior use.

ADVANTAGES:

- High mechanical resistance.
- High initial tack, allowing rapid bonding of the panel.
- Absorbs movements and vibrations.
- Resistant to humidity and temperature changes.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	280ml	White	10043172	8411729319229	24
Aluminum Bag	600ml	White	10043293	8411729362935	12

Primer C-29

Primer for silicone and MS polymer sealants. Perfect for priming all kinds of plastic and metal surfaces..

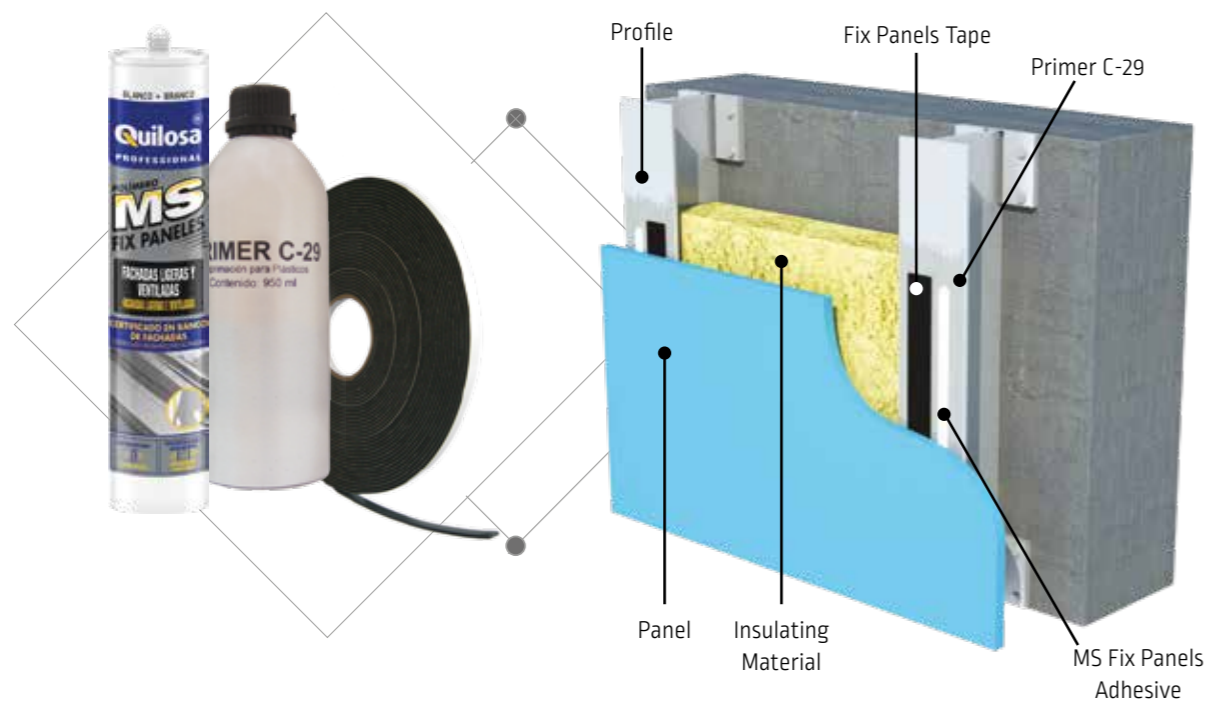

APPLICATIONS:

- Cleaning and pre-treatment of composite panels on light facades before application of the adhesive.

ADVANTAGES:

- Provides the best conditions for bonding the panel.

Packaging	Content	Code	EAN13 barcode n°	Units box
Bottle	950ml	10043768	8411729500627	4

Fix Panels Tape

Double-sided PE foam tape for installing light facades together with the FIX PANELS adhesive.

APPLICATIONS:

- Specially for initial bonding of the panel until the adhesive reaches maximum performance.

ADVANTAGES:

- High resistance.
- Thickness: 3mm; Width: 12mm.

Packaging	Content	Code	EAN13 barcode	Units/box
Roll	20 m	10043748	8411729493790	25

Sintex PU-40 Professional

Low-modulus, high-quality polyurethane sealant for construction gaskets. Certified by AENOR N. ISO11600 F 25 LM.

APPLICATIONS:

- Sealing of moving gaskets, both indoors and outdoors. Facades, prefab panels, wall-floor joints, non-passable floor joints.

ADVANTAGES:

- Paintable.
- High capacity of gasket movement.
- Resistant to contraction and expansion movement.
- Excellent adherence to most construction materials.
- Innovative technology that prevents bubbles in gaskets.
- Prevents slumping in vertical gaskets.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Aluminum Bag	600 ml	White	10042978	8411729222932	12
		Grey	10042959	8411729216917	12
		RAL 1015 Light Ivory	10042589	8411729105532	12
		Black	10042590	8411729105877	12
		Concrete Grey	10043246	8411729351212	12
Cartridge	300 ml	White	10043609	8411729944582	12
		Grey	10043610	8411729944667	12

Sintex PU-DW Drinking Water

Single-component medium-high modulus polyurethane sealant

APPLICATIONS:

- Sealing of cracks and fissures in tanks, cisterns, wells, etc.
- Expansion gaskets.
- Sealing floor gaskets.
- Elastic adhesion of construction elements.
- General industrial-grade sealing and adhering.

ADVANTAGES:

- Paintable.
- High capacity of gasket movement.
- Resistant to contraction and expansion movement.
- Excellent adherence to most construction materials.
- Innovative technology that prevents bubbles in joints.
- Prevents slumping in vertical gaskets.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	300 ml	White	10045584	8411729002800	12
		Grey	10045585	8411729002824	12

Sintex PU-50 Sealing and Bonding

Medium-high-modulus polyurethane for bonding and sealing.

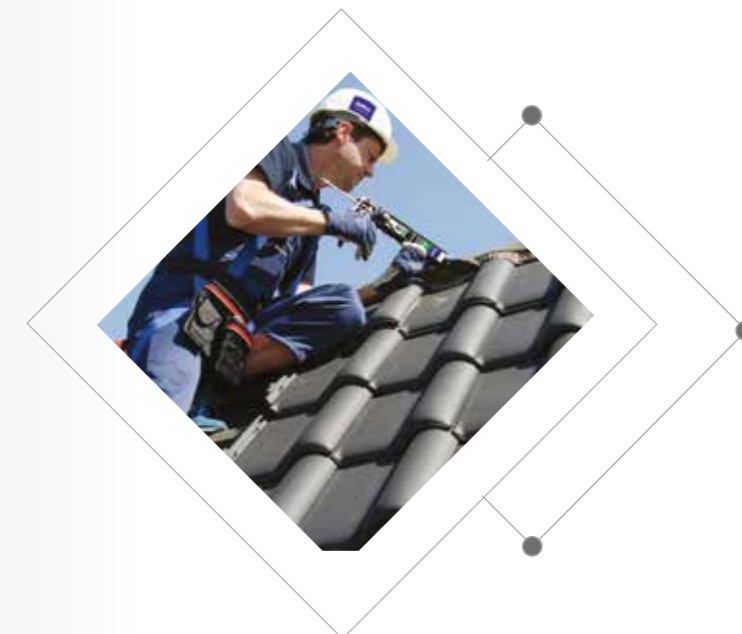

APPLICATIONS:

- Elastic sealing and bonding in construction and industry.
- Bonding of construction elements (tiles, screens, skirting boards).
- Fit for dilation seals.
- Sealing of framework and joinery.
- Joints in passable floors.
- Elastic sealing and bonding in industry (ventilation, air conditioning, automobile, containers, metal components).
- Excellent adherence to cement, brick, ceramic, metal, wood, polyurethane foam, epoxy and some polyesters.

ADVANTAGES:

- Strong and elastic, 2 in 1.
- Paintable.
- Interior and exterior.
- Absorbs vibrations and expansion movement.
- Prevents slumping in vertical seals.

Sintesel Wood

Siliconized acrylic sealant for seals on wood materials.

APPLICATIONS:

- Finishing and sealing gaskets in parquet, baseboards, skirting, cupboards and wooden pieces.
- Sealing of gaskets between wood and joinery (doors, windows, etc.).

ADVANTAGES:

- Paintable and varnishable.
- Extensive range of wooden colours.
- Extendable up to 1000%.
- Weather resistant.
- Indoors & outdoors use.

Liteplast Repair Paste

Light, easy-to-apply repair paste.

APPLICATIONS:

- Light and resistant paste, perfect for the repairing of sand, and repair cracks, fissures, openings and holes in any type of surface.

ADVANTAGES:

- Ready to use.
- Quick drying.
- Does not shrink or crack even when applied in thick lumps.
- Can be painted, varnished and sanded.
- Suitable for indoor and outdoor use.
- Pearl-white finish - melds with the wall.

Liteplast Repair Paste

Light repair paste for wood.

APPLICATIONS:

- Rapidly fills and repairs holes and damage in wood.

ADVANTAGES:

- Ready to use.
- Rapid drying.
- Does not shrink or crack even with significant thicknesses.
- Can be painted, varnished and sanded.
- Suitable for indoor and outdoor use.

Sintex AC-47 Cracks & Gaskets

Acrylic-based sealant for gaskets and fissures.

APPLICATIONS:

- Sealing of joints with low movement.
- Cracks in facades and walls.
- Sealing of roll blind boxes, door and window frames.
- Interior and exterior.

ADVANTAGES:

- Easy to apply.
- Weather resistant.
- Paintable.
- Good adherence to porous materials.
- Does not crack.

ORBAFOAM Pro Energy

Professional PU foam for the installation of windows & doors. Up to 60% reduction in energy consumption.

APPLICATIONS:

- Energy-efficient installation of windows & doors.
- High acoustic and thermal insulation values.

ADVANTAGES:

- Energy saving. It blocks thermal bridges as efficiently and permanently as possible, reducing energy loss up to 60%.
- Excellent acoustic insulation 64dB.
- Extraordinary adherence to PVC (+ 300%)
- Controlled expansion.
- Compact and homogeneous cells.
- Fast curing: 25 min.
- Suitable for winter use -10°C to +35°C.
- Shelf life: 18 months

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Gun canister	750 ml	Blue	10026579	8411729022617	12

Hauser Basic & Hauser Pro

General-use polyurethane foam. Available in both gun and straw application formats.

APPLICATIONS:

- Polyurethane foam for filling, insulating and assembling.

ADVANTAGES:

- Fast curing and medium expansion.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Straw canister	750 ml	Yellow	10024386	8411729281820	12
	500 ml	Yellow	10025126	8411729162955	12
Gun canister	750 ml	Yellow	10024388	8411729381745	12

ORBAFOAM Pro 45 / Pro 25 / Pro 15

High-quality professional polyurethane foam. High expansion.

APPLICATIONS:

- ORBAFOAM quality. Excellent properties of adherence, sealing and filling.
- More compact and homogeneous cells. It provides excellent thermal and acoustic insulation.
- Certified acoustic insulation up to 62dB - straw and 63dB - gun.
- Ideal for construction works and decoration in general, such as installing doors and windows, filling and sealing all types of cracks and holes.

ADVANTAGES:

- ERGO straw: Reusable along 60 days & total ergonomic control.
- Superior yield (+20%).
- New valve: greater resistance to blockage.
- Shelf life: 18 months.

Gun canister	750 ml	Yellow	10025046	8411729114039	12

ORBAFOAM Xtrem

Product video

High-quality, professional polyurethane foam. Applicable on a 360° angle. Reusable up to 9 months after open.

APPLICATIONS:

- Ideal for bonding, sealing and filling all types of surfaces.
- Due to its valve it is ideal for carrying out works where low product quantities are repeatedly applied over time (up to 9 months after first use).
- Multi-position 360°C valve to allow its application in hard to reach places.

ADVANTAGES:

- RE-USABLE up to 9 months after first use.
- 360° MULTI-POSITION.
- B2 Fire Stop Classification: Self-extinguishing, it does not spread fire (DIN4102).
- Its anti-blockage valve facilitates storage and transport by permitting flat placing.
- Shelf life: 18 months.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box

ORBAFOAM MULTI-PURPOSE

Easy to use

Free of VOD Emissions

Number 1 selling
multi-purpose
polyurethane foam

Orbafoam Multi-Purpose

Nr. 1 selling multi-purpose polyurethane foam, for application with straw or gun.

APPLICATIONS:

- Excellent sealing, adherence and filling properties.
- High adherence to most construction materials.
- Thermal and acoustic insulation.

ADVANTAGES:

- O2: 0% harmful MDI emissions during foam application.
- M1 Certificate: no emissions of harmful substances once cured. Excellent quality, compact and homogeneous cells.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Straw canister	750 ml	Yellow	10040903	8411729600877	12
Gun canister	750 ml	Yellow	10040829	8411729600952	12

ULTRA FAST

70 LITERS YIELD
For the **ULTRA FAST**
instalation of windows
and doors

Orbafoam Ultra Fast

Find out more here...

A fast-dry polyurethane foam, Ultra Fast 70 is specially suitable for the swift installation of Windows and Doors. Orbafoam Ultra Fast 70 is the foam with the highest yield in the market: you'll be able to get more windows and doors installed with just a single canister, meaning greater savings in both time and money.

APPLICATIONS:

- Professional installation of windows and doors. Specially suitable for jobs that need to get done as quickly as possible in a clean and efficient way.

ADVANTAGES:

- High yield: 70L./+9,3 linear meters.
- Ultra-fast hardening: expansion stops in 6 mins. and the excess foam can be cutted out after 10 mins.
- Completely hardened in 90 mins.
- Controlled expansion: avoid frame's deformations and product waste.
- Excellent cell-based structure.
- Suitable temperature for application: 5oC - 30oC.
- 63dB Soundproofing.
- 0,036 [W/m*K] λ. Thermal Insulation.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box
Gun canister	870 ml	Yellow	10041969	8411729487690	12

FIRE STOP

Orbasil N-28 Fire Stop

EI 240

Silicone rubber based sealant with high fire resistance.

APPLICATIONS:

- Making all kinds of seals.
- Dilatation joints in firewalls and slabs.
- Sealing of firewall doors.
- Sealing PVC elements.
- Automotive, aviation and boat industry.
- Sealing of connexions, pipes, cable leadthroughs, etc., where a fire protection is required.

ADVANTAGES:

- Up to 4 hours of fire resistance.
- Solvent free.
- It isn't harmful to concrete or metals.
- Excellent adhesion without primer to a wide range of substrates.
- Unaffected by the weather.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box
Cartridge	300ml	Pearl Grey	10003728	8411729241582	24
		White	10043150	8411729306762	24
Aluminum Bag	600ml	Pearl Grey	10043308	8411729367985	12

ORBAFOAM Fire Stop B1

B1 polyurethane foam for passive fire protection.

APPLICATIONS:

- For sealing, insulating and filling joints, cracks and holes around frames of windows, doors, sliding screens, joints between buildings, wall joints, firewalls... wherever fire protection is required.

ADVANTAGES:

- It provides resistance and insulation to fire up to 4h according to the standard UNE EN 1366-4 / 13501-2.
- It is smoke and gas-proof.
- Thermal and acoustic insulation.
- Shelf life: 12 months.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box
Straw canister	750 ml	Grey	10036223	8411729408169	12
Gun canister	750 ml	Grey	10003282	8411729384067	12

Sintex AC-41 Fire Stop

Fire-resistant acrylic sealant.
Classified EI 240 according to UNE EN 1366-4 / 13501-2.

APPLICATIONS:

- Sealing of low-movement seals in firewalls and slabs.
- Sealing of connections, metal pipes, cable installations, door or window frames that require protection against fire.

ADVANTAGES:

- Resists flames for up to 4 hours.
- Paintable.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box

Orbasil K-88 Fire Stop Resistant to high temperatures

Acetoxy silicone resistant to high temperatures.

APPLICATIONS:

- Hot air or vapor ducts up to 250°C.
- Ovens, smoke outlets, boilers, pump joints.
- Automobile industry: joints of the crankcase and the gearbox.

ADVANTAGES:

- Resistant to temperatures of 250°C continually and 325°C occasionally.
- Elastic.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	310ml	Red	10043795	8411729610449	12

Sintex Fire Stop Refractory

Sealing putty. Resists extreme temperatures and direct contact to open fire.

APPLICATIONS:

- Permanent repair and sealing of joints, cracks and fissures in chimneys, heating units, conduits, refractory elements, etc.

ADVANTAGES:

- Resistant to 1,500°C.
- Fire-proof.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	300ml	Black	10043034	8411729241902	12

Orbasil Gasket Maker

Instant silicone gasket maker, resistant to high temperatures.

APPLICATIONS:

- Bonds and substitutes cork, fibre and paper joints. For engines, gearboxes, ventilation systems and hydraulic equipment.

ADVANTAGES:

- Oil resistant.
- Resistant to temperatures up to 315°C.
- Fast curing.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Tube Blister	85 ml	Red	10043885	8411729925444	24

FIXATION 60 SEC

- Immediate grip.
- Extreme strength , up to 500 Kg/dm².
- Does not expand nor distort bonded surface areas. Does not deform material.

ORBAFOAM Fixation 60 Sec

First adhesive with high initial grip and immediate bonding presented in foam format. The innovative TYTACK technology revolutionizes traditional bonding systems.

APPLICATIONS:

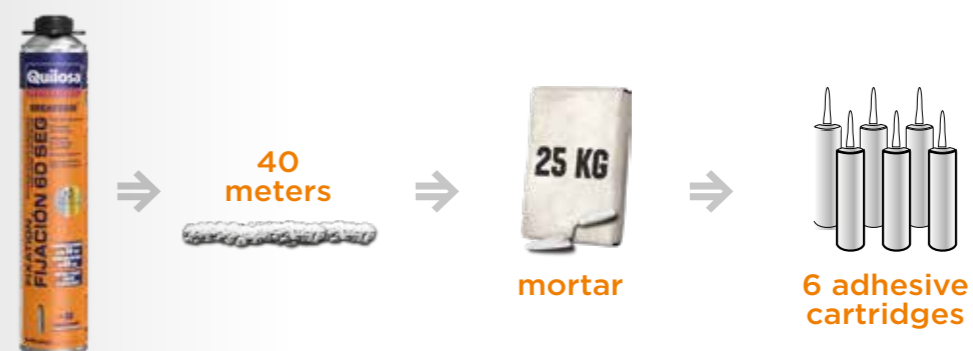

- Ideal for bonding all types of insulating panels, eps/xps panels, plaster panels, wood, conglomerate, porexpan boards, decorative elements, ceiling / wall repairs and insulation, fix windowsills, stairs and baseboards, calibrated blocks, as well as assembling of door frames, skirting, tiles, bathroom pieces, stone, rubber, metal, plastics (except PE, PP and PTFE).

ADVANTAGES:

- IMMEDIATE initial adhesion: in 60 seconds.
- Perfect adherence even on vertical surfaces.
- EXTREME STRENGTH: Maximum Resistance 500kg/dm²
- MEGA EFFICIENCY: One aerosol performs 40 lineal meters, does the same work than 25kg of traditional mortar or 6 cartridges of assembly adhesives. Cheaper than to use 6 cartridges of assembly adhesives too.
- CONTROLLED EXPANSION: Does not expand nor distort the bonded surfaces, does not deform material.
- READY FOR USE: Saves time and money, does not require electricity, water, or any extra primer.
- BONDS WHEN WET: May be applied on wet surfaces without losing adherence or bonding speed.
- ALL TYPES OF MATERIALS: May be used both for porous and non-porous materials. Indoor and outdoor use.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Straw canister	300 ml	Yellow	10041077	8411729202309	12
	750 ml	Yellow	10041079	8411729202224	12
Gun canister	750 ml	Yellow	10040750	8411729179540	12

GYPSUM CARDBOARD

IMMEDIATE initial grip
Extreme adhesive power: Up to 500 Kg/dm².
It neither expands nor distort the mounted surfaces.
It does not misshape materials.

ORBAFOAM Gypsum Cardboard

New Adhesive technology with high initial grip and immediate bonding presented in foam format. The innovative 3D Control technology revolutionizes traditional bonding systems..

Product video

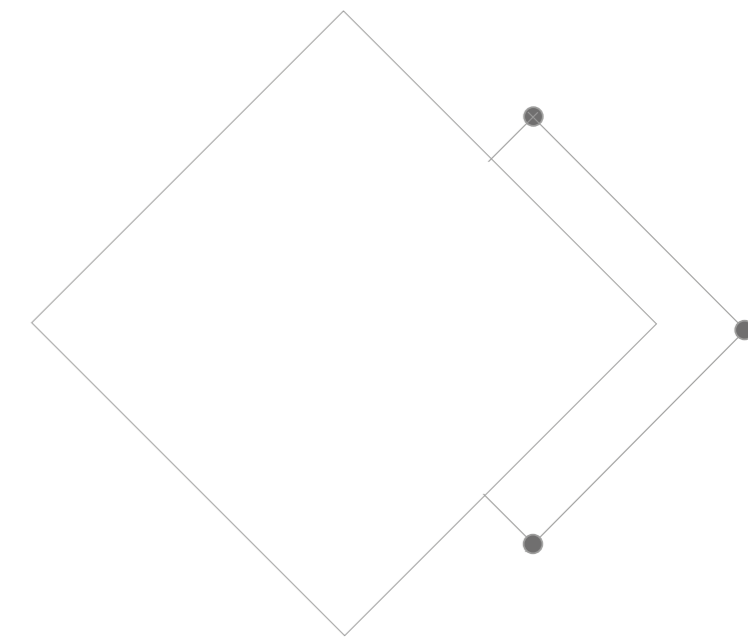

APPLICATIONS:

- Quilosa Professional Foam Adhesive for Gypsum Cardboard is a ready-to-use solution recommended for bonding boards, such as gypsum based fiberboards/cardboards and cementitious boards as a finishing layer on existing surfaces, such as walls and columns.

ADVANTAGES:

- 3 dimensional board levelling: Adjust the board vertically, horizontally and also its depth creating a seamless wall.
- CONTROLLED EXPANSION: Does not expand nor distort the bonded materials.
- Indoor and outdoor use
- No post-expansion: After final adjustment the board will not change position, next board can be bonded without the need for secondary adjustment.
- Up to 2 cm correction of walls unevenness: High density of the formula allows correction of unevenness of the wall up to 20 mm, making its application possible even in uneven walls.
- Immediate board grab: Product can be bonded to the substrate, immediately after the application. Apply, Bond, Adjust and you are done.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box
Aerosol for gun	750 ml	Blue	10041627	8411729440404	12

ORBAFOAM ETICS

ORBAFOAM ETICS

High-performance adhesive foam suitable for the assembly of ETICS panels. The formula's density ensures very high initial tack, achieving strong adherence.

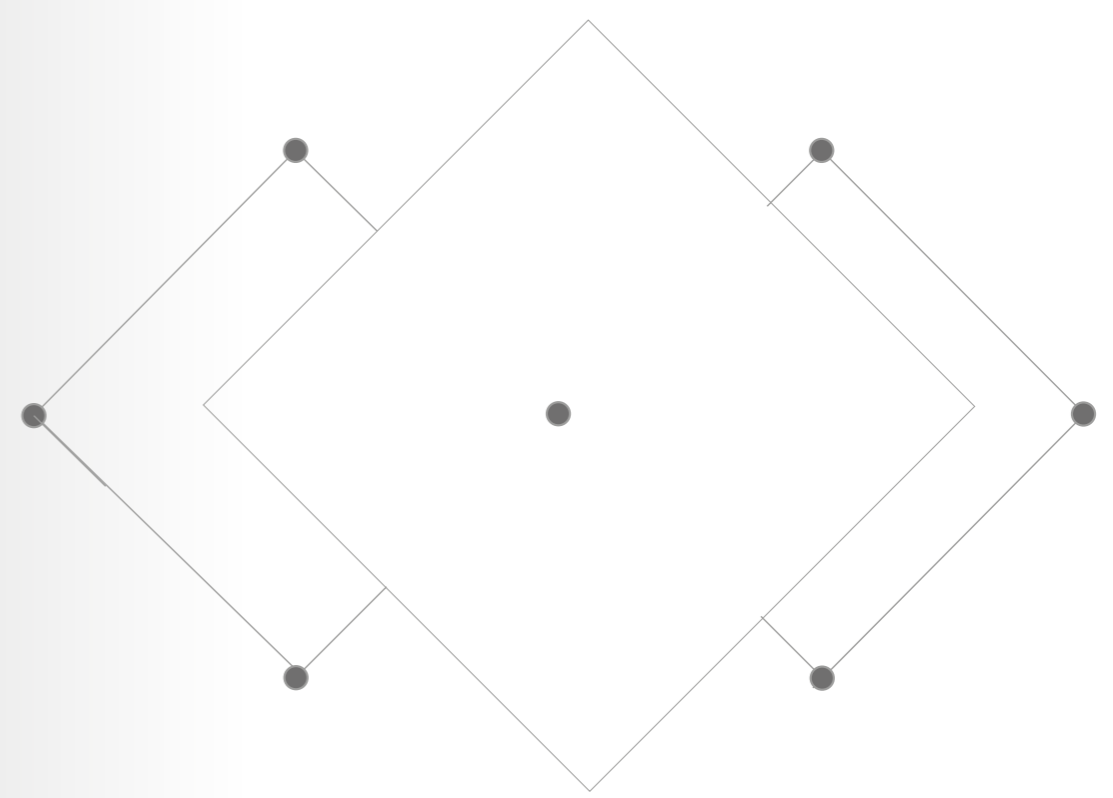

APPLICATIONS:

- Its use is ideal for the assembly of expanded polystyrene (EPS), extruded polystyrene (XPS), polyurethane (PUR) panels, mineral wool and glass foam. It can be applied on most construction materials: concrete, wood, bituminous membranes, ceramic, glass, metal, PVC.

ADVANTAGES:

- Immediate bonding.
- Allows corrections.
- Maximum efficiency.
- Express installation: Mechanical bonding in 2 h.
- Excellent adherence in EPS Graphite.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box
Aerosol for gun	850 ml	Grey	10040333	8411729083267	12

PowerFix Instant Strong

Product video

WORK FASTER. Immediate fixation and fast curing. For all types of materials including heavy ones.

APPLICATIONS:

- Fixation of elements where a immediate resistant and flexible bonding is required.
- ALL TYPE OF APPLICATIONS: Panels, skirting boards, door frames, sanitary accessories, metal and plastic parts, sheets, mirrors, insulation boards, prefabricated elements, chipboard panels, industrial bodywork...
- MULTIMATERIALS: Brick, metal, marble, stone, wood, ceramics, polystyrene, PVC, HDF, MDF, mirrors, glass, cork and others. NOTE: Do not use for PE, PP, Teflon and bituminous substrates.

ADVANTAGES:

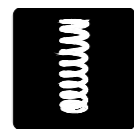

- The adhesion is so strong that it can be subjected to loads after 20-30 min, depending on the substrate and external conditions.
- Resistance to the hardest conditions: Thermal resistance -40°C to +90°C and UV radiation.
- Indoor and outdoor use.
- Adheres even on damp surfaces.

EVERYTHING WITH EVERYTHING

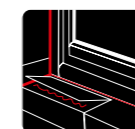

Extreme force

Resistance to shock and vibrations

Interior and Exterior -40°C to +90°C UV Resistant

Seals and Fills

Paintable

Applicable on wet surfaces and even underwater

PowerFix Instant Invisible

Ideal for works where **INVISIBLE, CLEAN** and **AESTHETIC** finishes are required. **FIXES, SEALS** and **REPAIRS** all types of materials.

APPLICATIONS:

- MULTIMATERIALS: Brick, metal, marble, stone, wood, ceramics, polystyrene, PVC, HDF, MDF, mirrors, glass, cork and others. NOTE: Do not use for PE, PP, Teflon and bituminous substrates.

ADVANTAGES:

- **ELASTIC:** Excellent durability that extraordinarily cushions vibrations, expansion and contraction movements.
- **TRANSPARENT:** clean and invisible finishes.
- Resistance to the hardest conditions: Thermal resistance -40°C to +90°C and UV radiation.
- Indoor and outdoor use.
- Adheres even on damp surfaces.

Fix Express

Solvent-free assembly adhesive, with immediate grip.

APPLICATIONS:

- Bonding of decoration and construction elements.
- Bonding of frames, skirting, panels, tiles, plaster.
- Suitable for bonding expanded polystyrene, insulation materials, wood, gypsum, bricks, etc
- At least one of the materials to be bonded must be porous.

ADVANTAGES:

- Immediate grip
- Multi-materials.
- Solvent-free, odourless.
- Washable with water.
- Indoor and outdoor use.
- Great filling capacity.
- Direct bonding.
- Resistance: 120 kg/cm²

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	375 gr	White	10024498	8411729189372	12

Fix Forte

Solvent-based, extra-strong assembly adhesive.

APPLICATIONS:

- Bonding of construction materials.
- Bonding of cable ducts, frames, slats, skirting board, insulation, signs indicators, bathroom and kitchen accessories, lighting points, alarms.
- Suitable for bonding plastic, wood, ceramic, plaster or metal on cement, concrete, mortar.

ADVANTAGES:

- Extra-strong bonding.
- Indoor and outdoor use.
- Suitable for porous and non-porous materials.
- Flexible bonding.
- Direct bonding.
- Resistance: 300 kg/10cm².

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	350 gr	Beige	10043091	8411729451202	12

Unifix Fast

Rapid-bonding white glue for wood.

APPLICATIONS:

- Suitable for bonding all types of wooden furniture and gluing agglomerates, laminates, cardboard, paper and modelling pieces.

ADVANTAGES:

- **Moisture resistant D3.**
- Rapid bonding.
- Resistant, lasting joints.
- Transparent once dry.

Bunitex P-55

Long open time.

APPLICATIONS:

- Bonding of rubber, leather, wood, cork, formic, metal, plastics, synthetic fibres, ceramic, cardboard, etc.
- Bonding of wood, shoes, rubber seal linings, waterproofing sheets such as canvas pool covers, melamine, decorative laminates, green house plastics.
- Recommendable for bonding large surface areas.

ADVANTAGES:

- Resistant, lasting, flexible joints.
- Long open time.

Bunitex Transparent

Maximum bonding resistance. Invisible.

APPLICATIONS:

- Bonding of flexible PVC, textile, canvases, rubber, cork, leather, paper, etc.
- For invisible joints in DIY and repair work.
- Suitable for repairing awnings, canvases, tents, etc.

ADVANTAGES:

- Invisible bonding.
- Strong initial tack.
- Flexible, lasting joints.
- High resistance.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Tube w/ Blister	50 ml	Transparent	10043245	8411729350482	12

Multifix PU Liquide

Solvent-free, water-resistant, single-component, liquid polyurethane adhesive.

APPLICATIONS:

- Ideal for carpentry and furniture assembly.
- Ideal for boats.
- Highly recommended for constructions in wood and unions that must withstand weathering.
- Suitable for application on tropical wood.

ADVANTAGES:

- Quickly reaches high resistance values.
- Great resistance to the humidity and water, even being sea water, according to UNE-EN 204.

Packaging	Content	Code	EAN13 barcode n°	Units box
Bottle	850 gr	10044776	8411729284725	12

Bricofix Wallpaper

Special powdered cellulose paste for hanging and bonding wallpaper. Indoor use.

APPLICATIONS:

- Bonding wallpaper.

ADVANTAGES:

- Performance up to 7 rolls of thick paper or 10 rolls of thin paper.

Packaging	Content	Code	EAN13 barcode nº	Units box
Box	125 gr	10043881	8411729883027	40

Bricofix Vynil Wallsheets

Vinyl paste, ready to use for bonding vinyl paper, both simple and duplex. Indoor use.

APPLICATIONS:

- Bonding of vinylpaper and heavy paper.

ADVANTAGES:

- Consumption of up to 5 m² per litre.
- Forms transparent elastic film.

Packaging	Content	Code	EAN13 barcode nº	Units/box
Pail	1 L	10043882	8411729883102	12
	5 L	10043883	8411729883287	1

Sintex PVC-U

Welding adhesive for rapid, resistant and lasting joints of tubes, slabs and rigid or flexible PVC accessories in pressure systems. Compliant with standard UNE-EN 14814 PVC-U / PN16.

APPLICATIONS:

- All types of applications: sanitation, pools, irrigation and repairs and professional installations in general.
- Resists up to 16 bars of nominal pressure successfully passing a test from 1,000 h to 51 bars of pressure, (equivalent to a water column of 520 m).
- Bonds tubes with a clearance of up to 0.6 mm.

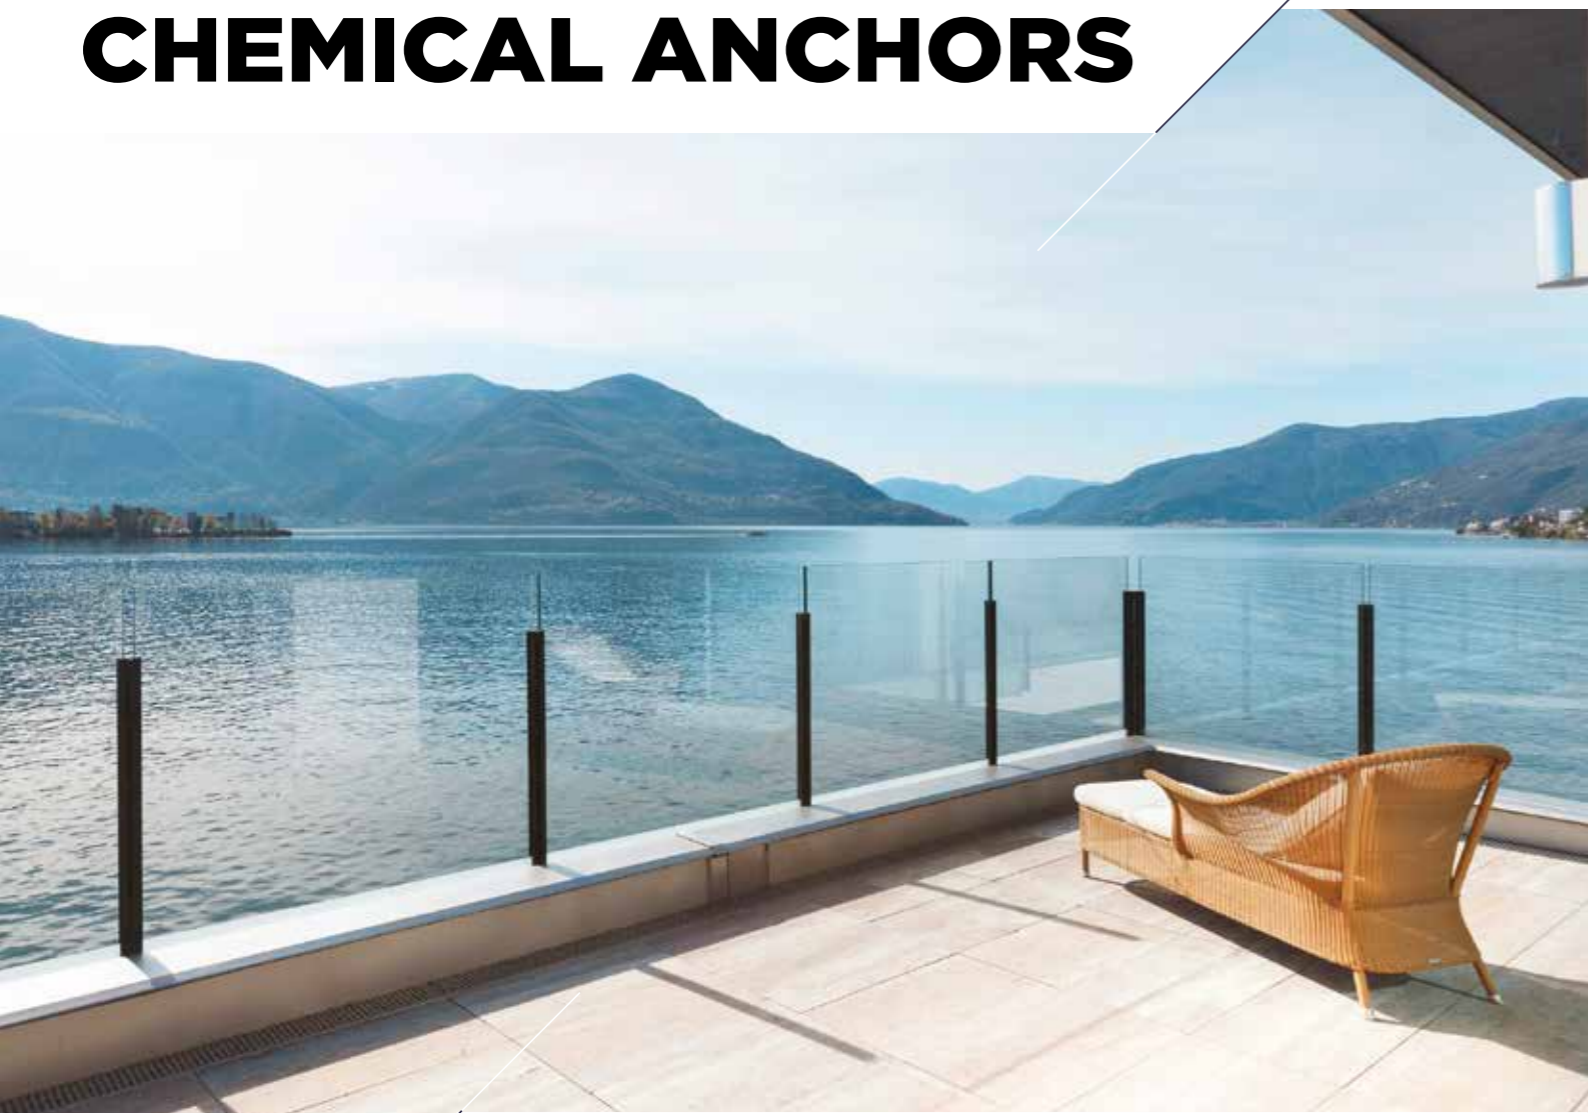

ADVANTAGES:

- Adhesive for rigid and flexible PVC tubes.
- Rapid drying.
- Longer shelf life, up to 24 months

Packaging	Content	Code	EAN13 barcode nº	Units box
Tube Dispenser	125 ml	10043677	8411729471422	12
Can with brush	250 ml	10042737	8411729158262	12
	500 ml	10044862	8411729001377	12
	1 l	10044864	8411729001391	12

CHEMICAL ANCHORS

EV1 Chemical Anchor Styrene-Free Polyester

The EV1 chemical anchor is a rapid-curing two-component resins for fixations in solid construction supports or hollow materials, in walls, columns, facades, floors, etc.

APPLICATIONS:

- Bonding of doors, frames and metal fastenings. Installation of toilets and bathroom fittings in general. Positioning of awnings and marquees.
- Fixation of air conditioning and parabolic antennas. Fixation of bookcases.

ADVANTAGES:

- Applicable on hollow and solid materials. Suitable for reduced edges distance and spacing.
- Does not drip in ceiling applications.
- Includes 2 mixing nozzles. Easy dosage. Re-usable.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	300 ml	Grey	10043065	8411729256685	12
	410 ml	Grey	10045224	8411729002046	12

EV2 Epoxy Chemical Anchor Based on Styrene-Free Vinylester

A two-component Epoxy resin for heavy, high- performance loads, rapid curing and low odour, with high reactivity. It provides very good chemical resistance in highly aggressive environments or under humid conditions, even in underwater anchors.

APPLICATIONS:

- Heavy machinery and exigent fixation applications in slab work and concrete.
- Fixation of cranes. Anchors for prefabricated elements. Fixation of handrails.
- Road signposts. Hollow walls.

ADVANTAGES:

- Recommended for heavy loads, both static and dynamic.
- Application on dry or wet surfaces. Even under water.
- High chemical resistance: suitable in aggressive environments.
- For medium-large diameter drills and high embedding depths.
- Includes 2 mixing nozzles. Re-usable.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Cartridge	300 ml	Grey	10042375	8411729053062	12

AQUA PROTECT

AQUA PROTECT Walkable P4

Elastic coating based on MS technology. The product is ready to apply, curing in ambient temperature by reaction with humidity for waterproofing and repairing pedestrian roofs and terraces.

APPLICATIONS:

- Especially suitable for reconstruction and repair of leaks, joints between tiled roofs and entry points of pipework.
- Waterproofing and protection of pedestrian roofs and terraces, flat and sloping roofs, gutters, joints at chimneys, skylights and ventilation outlets. Can be used for common materials in construction and waterproofing, metals in general (copper, zinc, aluminum, stainless steel, galvanized sheet, etc.), thermal insulation (polyurethane), wood (fiber board and plywood), the second layer of the product can be used for bonding ceramic tiles.

ADVANTAGES:

- Classification by internal tests according to ETAG 005:
 - P4, pedestrian transit
 - W3, complies with the requirements of 25 years life expectancy
 - Climatic zone S (severe)
- No residual tack.
- Can be applied without primer except on bitumen surfaces.
- Suitable for wet areas.
- Waterproof. Can be used even in areas with standing water in roofs and terraces.
- Permeable to water vapour.
- High resistance to ultraviolet rays and different weather conditions.
- Paintable. Does not contaminate for subsequent paint applications.
- Anti-mould. Doesn't blacken.

Packaging	Content	Colour	Code	EAN13 barcode nº	Units box
Can	1 kg	Grey	10043683	8411729480257	6
		Terracotta	10043684	8411729480417	6

		Terracotta	10043442	8411729414597	1

AQUA PROTECT Rubber Fibrecoat

Liquid resin based on acrylic with addition of fibres, creating an elastic, waterproof coating designed for repair works on flat roofs, terraces and balconies. Ultra-thin microfibers give very high mechanical properties.

APPLICATIONS:

- Renovation of coverings on new and old concrete roofs, metal roofs, old and new bituminous roofs and tiles and gutters without standing water. Should be applied with roller. It is compatible with different type of surfaces such as bitumen sheeting, concrete, ceramic tiles, galvanized steel sheet, stainless steel and aluminum. Ambient temperature during application from +15°C to 35°C.

ADVANTAGES:

- Great resistance to micro-cracks.
- Extended elasticity (300%).
- Low water absorption.
- High durability – up to 15 years.
- High resistance to changing weather conditions, ensuring high and stable quality of repairs for many years.

Bitumen Tape

Self-adhesive, bitumen waterproofing tape protected with aluminum film. Its strong adherent power makes it ideal for sealing, waterproofing and protecting any surface.

APPLICATIONS:

- Protection and repair of different types of roofing (metal, plastic, fiber-cement).
- Sealing of frames and skylights, railings, glass and plastic structures.
- Sealing of concrete joints, covering of openings between window frames and walls.
- Repair of tiles, gutters, metal tubes, fiber-cement roofs and metal panels.

ADVANTAGES:

- Versatile and easy to use. Easy and rapid cold application.
- Excellent resistance to weathering and UV rays.
- Good initial sealing and strong adherence.
- Great adherence to metals, wood, marble, ceramic, concrete, stone and some types of plastic.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Roll	10 cm x 10 m	Aluminum	10003753	8411729021887	3

AQUA PROTECT Liquid MS Silicone

Elastic coating, based on MS technology, ready to use, cures at room temperature in contact with air humidity, for waterproofing and repairing works.

APPLICATIONS:

- Waterproofing and protection of flat and sloping roofs, gutters, terraces (passable for maintenance or sporadically), joints in chimneys, skylights and ventilation outlets.
- Applicable on the most common materials in construction and waterproofing, metals in general (copper, zinc, aluminum, stainless steel, etc), thermal insulations (polyurethane, polystyrene), wood (agglomerate, plywood).
- Especially suitable for repairing leaks, joints between roofs and joints between ducts and joinery.

ADVANTAGES:

- **ETAG 005 certification (W2/W3) that provide a working life of 10/25 years.**
- Applicable even on wet surfaces and under rain.
- Great filling capacity.
- High resistance to stagnant water and UV rays.
- Does not need primer, except on bitumen applications.
- Does not shrink.
- May be used as adhesive for ceramic flooring.
- 400% elastic.
- Paintable.

Water Repellent for Floors

Siloxane and fluorisilane resin-based, colorless, water-repellent liquid in organic solvent, for protecting porous floors from humidity, grease stains and oils.

APPLICATIONS:

- Protection treatment for floors on absorbent construction materials: Terraces, Balconies, Patios, Gardens, Barbecues, etc.
- Do not use on non-porous materials, waxed or oiled materials, wood, etc.

ADVANTAGES:

- Anti-moss - Anti-humidity - Anti-stain.
- Invisible (Transparent).
- Passable.
- Resists UV rays.
- Repels water and oil.

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Can	0,750 L	Colourless	10042180	8411729001094	6
	5 L	Colourless	10042181	8411729001254	2
	25 L	Colourless	10042460	8411729071462	1

Water Repellent for Facades and Roofs

Siloxane resin-based, colorless, water-repellent liquid in organic solvent, for protecting construction materials, providing water repellency.

APPLICATIONS:

- Waterproofing treatment on walls and roofs exposed to rain, maintaining the original appearance of the materials. Ideal for protecting exterior walls of brick, stone or roofs, monuments and porous materials that need to be waterproofed while maintaining their original appearance.
- Do not use on non-porous materials, waxed or oiled materials, wood, etc.

ADVANTAGES:

- Anti-moss.
- Invisible (Transparent).
- Anti-humidity.
- Resistant to UV rays.
- Does not give shine, maintaining materials' natural appearance .

Packaging	Content	Colour	Code	EAN13 barcode n°	Units box
Can	5 L	Colourless	10042179	8411729000752	2
	25 L	Colourless	10042459	8411729071387	1

Aquaprotect Residence Shingles

Coating formulated with high quality SBS elastomer-modified bitumen and glass fibre felt reinforcement.

APPLICATIONS:

- Sloping and complicated roofs
- Pitched roof

ADVANTAGES:

- Long-term durability.
- Low weight load on the roof structure.
- High sound insulation.
- Self-adhesive underlay.
- Flexible

ACCESSORIES

Ob Gun High Resistance

High-resistance gun.

Packaging	Code	EAN13 barcode	Units/box
Unit	10043856	8411729733537	6

Gun for Products Hard to Extrude

High-resistance gun for applying high -viscosity products.

Packaging	Code	EAN13 barcode	Units/box
Unit	10043095	8411729271367	1

Gun Economic

Manual gun for home applications.

Packaging	Code	EAN13 barcode	Units/box
Unit	10043859	8411729736682	12

410 ml Chemical Anchor Gun

Easy-to-use gun for chemical anchor cartridges up to 380 ml.

ADVANTAGES:

- Rigid structure.
- Designed for application of viscous products, facilitates extrusion.

Packaging	Code	EAN13 barcode	Units/box
Unit	10025411	8411729330767	1

Gun Foam Caliber 30

Professional gun for applying polyurethane foam.

ADVANTAGES:

- Keeps foam thickness stable during the application process. Light, ergonomic, easy-to-use, safe handle. Innovative closure to prevent wasting foam.
- Increases foam yield up to 30%.

Packaging	Code	EAN13 barcode	Units/box
Unit	10003731	8411729041434	1

Gun Foam Pro Graphite

Excellent-quality, long-lasting aluminium gun with non-stick teflon coating.

ADVANTAGES:

- Keeps foam thickness stable during the application process. Light, ergonomic, easy-to-use, safe handle. Innovative closure to prevent wasting foam.
- Aluminium body with a non-stick teflon coating
- Equipment: 2 caps for the nozzle, 2 tubes, 1 scraper

Packaging	Code	EAN13 barcode	Units/box
Unit	10040043	8411729736439	1

Politen Cel Backing Rod

Polyethylene filling cord for joint bases. Available in different diameters.

Packaging	Content	Code	EAN13 barcode	Units/box
Box	1150m x 10mm	10043850	8411729732707	1
	550m x 15mm	10043154	8411729309404	1
	350m x 20mm	10043851	8411729732967	1
	200m x 25mm	10043852	8411729733049	1
	160m x 30mm	10043853	8411729733124	1
	270m x 40mm	10043854	8411729733209	1
	180m x 50mm	10043855	8411729733384	1

B1 Nozzle

Applicator nozzle for sealant in aluminium bags.

Packaging	Code	EAN13 barcode	Units/box
Unit	10043857	8411729734114	10

Nozzle Cartridge

Nozzle for applying sealants by cartridge.

Packaging	Code	EAN13 barcode	Units/box
Unit	10043225	8411729342807	24

Mixing Nozzles

Mixer for two-component chemical anchor resins.

ADVANTAGES:

- Allows faster mixing.
- Reduces waste of the product initially mixed.
- Facilitates application, with very little resistance to extrusion.

Packaging	Content	Code	EAN13 barcode	Units/box
Bag	10 units	10043079	8411729262037	5
